### **General Description**

The LTA8081, LTA8082 and LTA8084 (LTA808x) are a family of low power, 48 V wide supply voltage, rail-to-rail output, precision operational amplifiers capable of operating on supplies ranging from +4.5 V ( $\pm 2.25$  V) to +48 V ( $\pm 2.4$  V). This new generation of high-voltage CMOS operational amplifiers, in conjunction with the LTA809x, LTA807x and LTA806x, provide a family of bandwidth, noise, and power options to meet the needs of a wide variety of applications. The LTA808x devices offer outstanding dc precision and ac performance, including low offset ( $\pm 75~\mu V$  typically), low offset drift ( $\pm 1.5~\mu V$ /°C typically), 10 MHz bandwidth, and 8 nV/ $\sqrt{Hz}$  input voltage noise density at 10 kHz. Unique features such as differential input-voltage range to the negative supply rail, high output current ( $\pm 45~mA$ ), high capacitive load drive of up to 1 nF, and high slew rate (9 V/ $\mu$ s) make the LTA808x high-performance operational amplifiers for high-voltage industrial applications.

The robust design of the LTA808x family provides ease-of-use to the circuit designer: integrated RF/EMI rejection filter, no phase reversal in overdrive conditions, and high electro-static discharge (ESD) protection. The LTA808x are optimized for operation at voltages from +4.5 V ( $\pm 2.25$  V) to +48 V ( $\pm 2.4$  V) over the extended temperature range of -40 °C to +125 °C.

#### Features and Benefits

■ Wide Supply: ±2.25 V to ±24 V, 4.5 V to 48 V

Low Offset Voltage: ±75 μV Typically
Low Offset Voltage Drift: ±1.5 μV/°C
High Common-Mode Rejection: 116 dB

Gain Bandwidth: 10 MHz

Slew Rate: 9 V/μs

Low Noise: 8 nV/√Hz at 10 kHz
Low Bias Current: ±10 pA

Rail-to-Rail Output

# Applications

- Tracking Amplifier in Power Modules
- Merchant Power Supplies
- High-Side and Low-Side Current Sensing
- High Precision Comparator
- Battery-Powered Instruments
- Test and Measurement Equipment
- Multiplexed Data-Acquisition Systems
- Programmable Logic Controllers

### Pin Configuration (Top View)

### Pin Description

| Symbol          | Description  |
|-----------------|--|
| -IN             | Inverting input of the amplifier. The voltage range is from $V_{S-}$ to $V_{S+}$ – 1.5 V.  |
| +IN             | Non-inverting input of the amplifier. This pin has the same voltage range as –IN.  |
| +V <sub>S</sub> | Positive power supply. The voltage is from 4.5 V to 48 V. Split supplies are possible as long as the voltage between $V_{S+}$ and $V_{S-}$ is from 4.5 V to 48 V.                    |
| -V <sub>S</sub> | Negative power supply. It is normally tied to ground. It can also be tied to a voltage other than ground as long as the voltage between $V_{S+}$ and $V_{S-}$ is from 4.5 V to 48 V. |
| OUT             | Amplifier output.  |
| NC              | No connection  |

### Ordering Information (1)

| Type Number    | Package Name | Package Quantity     | Eco Class <sup>(2)</sup> | Marking Code <sup>(3)</sup> |
|----------------|--------------|----------------------|--------------------------|-----------------------------|
| LTA8081XT5/R6  | S0T23-5L     | Tape and Reel, 3 000 | Green (RoHS & no Sb/Br)  | H81                         |
| LTA8081XS8/R8  | SOIC-8L      | Tape and Reel, 4 000 | Green (RoHS & no Sb/Br)  | HV-81                       |
| LTA8081XV8/R6  | MSOP-8L      | Tape and Reel, 3 000 | Green (RoHS & no Sb/Br)  | HV81                        |
| LTA8082XS8/R8  | SOIC-8L      | Tape and Reel, 4 000 | Green (RoHS & no Sb/Br)  | HV-82                       |
| LTA8082XV8/R6  | MSOP-8L      | Tape and Reel, 3 000 | Green (RoHS & no Sb/Br)  | HV82                        |
| LTA8082XF8/R6  | DFN3x3-8L    | Tape and Reel, 3 000 | Green (RoHS & no Sb/Br)  | HV82                        |
| LTA8084XS14/R5 | SOIC-14L     | Tape and Reel, 2 500 | Green (RoHS & no Sb/Br)  | HV-84                       |
| LTA8084XT14/R6 | TSS0P-14L    | Tape and Reel, 3 000 | Green (RoHS & no Sb/Br)  | HV-84                       |

- (1) Please contact to your Linearin representative for the latest availability information and product content details.
- (2) Eco Class The planned eco-friendly classification: Pb-Free (RoHS) or Green (RoHS & Halogen Free).
- (3) There may be multiple device markings, a varied marking character of "x", or additional marking, which relates to the logo, the lot trace code information, or the environmental category on the device.

### Limiting Value - In accordance with the Absolute Maximum Rating System (IEC 60134).

| Parameter  | Absolute Maximum Rating                             |
|--|---|
| Supply Voltage, V <sub>S+</sub> to V <sub>S−</sub> | 60 V  |
| Signal Input Terminals: Voltage, Current           | –V $_{S}$ – 0.3 V to +V $_{S}$ + 0.3 V, $\pm 10$ mA |
| Output Short-Circuit                               | Continuous  |
| Storage Temperature Range, T <sub>stg</sub>        | -65 to +150 ℃                                       |
| Junction Temperature, T <sub>J</sub>               | 150 ℃   |
| Lead Temperature Range (Soldering 10 sec)          | 260 ℃   |

### **ESD Rating**

| Parameter                          | Item   | Value | Unit |
|------------------------------------|--|-------|------|
| Electrostatic<br>Discharge Voltage | Human body model (HBM), per MIL-STD-883J / Method 3015.9 (1) | 2 000 | V    |
|                                    | Charged device model (CDM), per ESDA/JEDEC JS-002-2014 (2)   | 2 000 | - V  |

(1) JEDEC document JEP155 states that 500-V HBM allows safe manufacturing with a standard ESD control process. Manufacturing with less than 500-V HBM is possible if necessary precautions are taken.

(2) JEDEC document JEP157 states that 250-V CDM allows safe manufacturing with a standard ESD control process. Manufacturing with less than 250-V CDM is possible if necessary precautions are taken.

### **Electrical Characteristics**

 $V_S$  = 4.5 V to 48 V,  $T_A$  = +25 °C,  $V_{CM}$  =  $V_{OUT}$  =  $V_S/2$ , and  $R_L$  = 10 k $\Omega$  connected to  $V_S/2$ , unless otherwise noted. Boldface limits apply over the specified temperature range,  $T_A$  = -40 °C to +125 °C.

| Parameter                         | Symbol   | Conditions   | Min.            | Тур. | Max.                 | Unit                   |  |

# **Typical Performance Characteristics**

At T  $_{A}$  = +25 °C, V  $_{CM}$  = V  $_{S}$  /2, and R  $_{L}$  = 10 k $\Omega$  connected to V  $_{S}$  /2, unless otherwise noted.

Quiescent Current as a function of Temperature

Output Voltage Swing as a function of Output Current (Sourcing,  $V_S = 40 \text{ V}$ )

Output Voltage Swing as a function of Output Current (Sinking,  $V_S = 40 \text{ V}$ )

Large-Signal Step Response(Failing)

Small-Signal Step Response

# Tape and Reel Information

#### **REEL DIMENSIONS**

#### **TAPE DIMENSIONS**

| A0 | Dimension designed to accommodate the component width     |
|----|---|
| B0 | Dimension designed to accommodate the component length    |
| K0 | Dimension designed to accommodate the component thickness |
| W  | Overall width of the carrier tape                         |
| P1 | Pitch between successive cavity centers                   |

#### **QUADRANT ASSIGNMENTS FOR PIN 1 ORIETATION IN TAPE**

#### \* All dimensions are nominal

### **Important Notice**

Linearin is a global fabless semiconductor company specializing in advanced high-performance high-quality analog/mixed-signal IC products and sensor solutions. The company is devoted to the innovation of high performance, analog-intensive sensor front-end products and modular sensor solutions, applied in multi-market of medical & wearable devices, smart home, sensing of IoT, intelligent industrial & smart factory (industrie 4.0), and automotives. Linearin's product families include widely-used standard catalog products, solution-based application specific standard products (ASSPs) and sensor modules that help customers achieve faster time-to-market products. Go to <a href="http://www.linearin.com">http://www.linearin.com</a> for a complete list of Linearin product families.

For additional product information, or full datasheet, please contact with the Linearin's Sales Department or Representatives.
